Junior Software Developer with strong skills in HTML, CSS, JavaScript, and Angular.
Experienced in building responsive web applications and integrating Firebase services.
Quick learner with a passion for solving real-world problems through clean code.
Eager to contribute to team success and grow in a dynamic development environment.

TECHNICAL SKILL

Programming Languages: HTML, CSS, TypeScript, JavaScript

Libraries & Frameworks: Angular, Bootstrap, Tailwind Css, Ionic

Backend & Database: Firebase, Node.js, MySql.

EDUCATION

MSC. Information Technology   2022-2024

Vel's University

8.2CGPA

BSC. Information Technology   2019 – 2022

Sadakathullah Appa College

8.1CGPA

WORK EXPERIENCE

Junior Software Developer (Trainee)   March 2025 – August 2025

Adpative Development Private Limited, Tirunelveli

- Completed a 6-month Trainee focused on web application development.
- Built responsive UI components using HTML, CSS, JavaScript, and Angular.
- Integrated Firebase services like Authentication and Firestore for real-time data handling.
- Integrated Firebase for user authentication and real-time database operations.
- Gained hands-on experience in building a shopping cart, to-do list, and profile management modules.
- Independently developed a shopping cart project using Angular and Firebase, and deployed it on Firebase Hosting.

PROJECT

Project Name: ASShopping Cart **– Website:** https://asshopping-app.web.app

- Developed a fully functional shopping cart application using Angular 19.
- Integrated Firebase services like Authentication and Firestore for real-time data handling.
- Used Firestore Database to manage products, cart, wishlist, and user profiles.
- Built responsive UI with Bootstrap and implemented routing for smooth navigation.
- Deployed the project using Firebase Hosting.
- Implemented route guards to protect pages like Cart, and Profile from unauthorized access.
- Used Reactive Forms and Template-driven Forms for user input, validation, and profile updates.

Keys: Angular, Bootstrap, Firebase

CERTIFICATIONS / TRAINING

SDET (Software Development Engineer in Test**)**   January - August, 2024

QSpiders, Bangalore

Successfully completed training covering:
- Core Java, Manual Testing, and Automation Testing
- API Testing using tools like Postman
- Oracle SQL for database validation
- Gained hands-on experience in writing test cases, understanding SDLC/STLC, and executing automation scripts.
